Experience

Software Engineer Intern

Jan 2025 – Jun 2025

ACE Hospital and Research Centre

Pune, Maharashtra

- Developed healthcare software applications for hospital management and patient care optimization
- Collaborated with cross-functional teams and participated in software testing and quality assurance

React Developer Intern

Jul 2022 – Jan 2023

Sutradhar Project Consultancy

Pune, Maharashtra

- Developed OLY-like web application with AI features using React.js and modern web practices
- Gained experience in production deployment, testing, and versioning best practices

DevOps Intern

Jul 2022 – Jan 2023

Oytie - IT Training & Placement Institute

Remote

- Set up CI/CD pipelines and worked with containerization technologies and cloud deployment
- Troubleshoot deployment issues demonstrating infrastructure understanding and problem-solving

Projects

Healthcare Management System | Web Development, Database Design

2025

- Built during ACE Hospital internship for patient management and appointment scheduling
- Implemented secure patient data handling with role-based access control

OLY-like Marketplace with AI | React, Node.js, AI Integration

2022 – 2023

- Built marketplace with AI-powered recommendations and real-time messaging
- Integrated AI algorithms for automatic product categorization and price suggestions

CI/CD Pipeline Implementation | Docker, Jenkins, AWS

2022

- Designed automated deployment pipelines reducing deployment time by 60%
- Integrated automated testing and monitoring solutions for continuous delivery

Education

Bachelor of Engineering

2023 – 2026

Savitribai Phule Pune University, Pune

Cumulative GPA: 7.20

Diploma in Information Technology

2023

Maharashtra State Board of Technical Education, Pune

83.88%

Technical Skills

Software Development: Scalable software solutions, high performance applications, security best practices

System Design & Architecture: Software architecture patterns, design principles, maintainable systems

DevOps & Cloud: CI/CD pipelines, Git, Docker, AWS, automated deployments

Certifications

Relevant Coursework: Learn Ethical Hacking From Scratch

Honors & Awards

Certificate of Achievement – Technothon 2023

2023

- Awarded for outstanding performance in National Level Offline Project, Start-up, Paper, and Poster Competition
- **Third Prize in Project Competition** – Recognized for innovative project presentation and execution
- **First Prize in Project Competition** – Secured top position for excellence in project development

Certificate of Achievement – Techno Vision 2023

Mar 2023

- Secured **2nd position** in Project Idea Contest organized by Bhivarbai Sawant College of Engineering

Volunteering

Student Volunteer | GirlScript Foundation

Nov 2023

- Empowered the next generation of tech innovators by volunteering at GirlScript Web3 Bootcamp
- Supported 100+ participants in their journey into Web3.0 and collaborated with fellow volunteers
